NOTES: A "family" means beneficiaries entitled on one worker's account. The data may understate the number of families with dependents because records of awards to dependents made in a different calendar year are not available for inclusion.

Data exclude expedited reinstatement cases; they include beneficiaries whose benefits are being withheld.

- Benefits awarded before the December cost-of-living increase are converted to the December rates before averages are computed.
- Includes families and worker-only beneficiaries for whom the primary insurance amount is equal to the family maximum amount.
- If the spouse is also entitled to a retired-worker benefit, only the benefit amount received as a spouse is included.
