## Table 2.A1—Covered employment and self-employment provisions, by year enacted—Continued

| Year enacted | Coverage election or waiver | Provision |
| :---: | :---: | :---: |
| 1983 (cont.) | Elective by employer | U.S. residents employed outside the United States by a foreign affiliate of an American employer. |
|  |  | Employees of nonprofit organizations placed under compulsory coverage; nonprofit organizations prohibited from terminating coverage of their employees on or after March 31, 1983. |
|  | Elective by employer or by employer and employee | States prohibited from terminating coverage of employees (after April 20, 1983) and permitted to reinstate coverage for a terminated group. |
| 1984 |  | Rehired federal employees whose previous service was covered. |
|  |  | Persons exercising reemployment rights to noncovered federal employment retain exemption after a period (not limited to 365 or fewer days) of military or national guard service or work for an international organization. |
|  |  | Generally, all legislative branch employees except those who were participating on December 31, 1983, and are also currently participating in the Civil Service Retirement System or another federal retirement system. |
|  |  | Employees of nonprofit organizations who are also participating on a mandatory basis in the Civil Service Retirement System are treated like federal employees for Social Security tax and coverage purposes. They are therefore not covered unless hired on or after January 1, 1984, or reemployed after a break in service of more than 365 days. |
|  | Elective by employer | Churches or church-related organizations may elect irrevocably to have services performed by their employees excluded from covered employment. Their employees are then treated as self-employed for Social Security purposes. |
| 1986 |  | State and local government employees hired after March 31, 1986-Hospital Insurance (Part A) program only. |
|  | Elective by individual | Members of the clergy and of religious orders who filed an application for exemption from coverage may revoke the exemption if the revocation is filed before the due date of the individual's federal income tax return for the first taxable year beginning after October 22, 1986. |
|  | Elective by employee | Employees covered under Civil Service Retirement System can elect to switch to Federal Employees Retirement System from July 1, 1987, to December 31, 1987. |
| 1987 |  | Members of uniformed services reserve components on inactive duty training. Irregularly employed farm workers (if employer's annual expenditures for farm labor is at least $\$ 2,500$ ). Services performed in trade or business of spouse or by children aged 18 or older in trade or business of parent. For employers, the full amount of covered tips. |
| 1990 |  | State and local government employees not under a state or local government retirement system. Exceptions: (1) students employed by the educational institution they attend and (2) election workers paid less than the mandated amount (\$100), unless either group covered under a state's Section 218 agreement. |
| 1994 | $\ldots$ | Threshold for exclusion of wages paid to election workers raised from $\$ 100$ to $\$ 1,000$ annually beginning January 1, 1995, and will be indexed for wage increases each year after December 31, 1999. |
|  | $\ldots$ | Police and fire fighters under a public retirement system can be covered for Social Security in all states. |
|  | $\ldots$ | Threshold for coverage of domestic employees' earnings raised from $\$ 50$ per calendar quarter to $\$ 1,000$ per calendar year per employer; amount subject to annual automatic adjustments. Domestic workers no longer covered for years in which they were under age 18, unless they are no longer in school and domestic employment is their principal occupation. Coverage of earnings of domestic workers on farms becomes subject to new annual threshold for domestic workers instead of annual threshold for agricultural employees. |
| 1997 | Elective by employee | Employees covered under Civil Service Retirement System can elect to switch to Federal Employees Retirement System from July 1, 1998, to December 31, 1998. |
| 1998 | $\cdots$ | States can modify their Social Security coverage agreements made between January 1, 1999, and March 31, 1999, to exclude from coverage services performed by students employed by state schools, colleges, or universities, effective for services performed after June 30, 2000. |
| 1999 | Elective by individual | Members of the clergy and of religious orders who filed an application for exemption from coverage may revoke the exemption if the revocation is filed before the due date of the individual's federal income tax return for the second taxable year beginning after December 31, 1999. |

## Table 2.A2-Noncontributory wage credit provisions, by year enacted

| Year enacted | Provision |
| :---: | :---: |
| 1946 | Fully insured status and average monthly wage of \$160 for World War II veterans who died within 3 years after discharge. |
| 1950 | Wage credits of \$160 per month of military service during World War II period (September 16, 1940-July 24, 1947). |
| 1952 | Wage credits of \$160 per month of military service to December 31, 1953. |
| 1953 | Wage credits of \$160 per month of military service to June 30, 1955. |
| 1955 | Wage credits of \$160 per month of military service to March 31, 1956. |
| 1956 | Wage credits of \$160 per month of military service to December 31, 1956. |
| 1967 | For uniformed services, wage credits of $\$ 100$ for each $\$ 100$ (or fraction thereof) of basic pay not in excess of $\$ 300$ per calendar quarter, beginning in 1968. |
| 1972 | For uniformed services, wage credits of $\$ 300$ per calendar quarter of service after 1956. (Supersedes 1967 provision.) For U.S. citizens of Japanese ancestry, wage credits for the period they were interned by the U.S. government during World War II period (December 7, 1941-December 31, 1946) and who were aged 18 or older. |
| 1977 | For uniformed services, wage credits of \$100 for each \$300 of basic pay up to maximum credit of \$1,200 per calendar year after 1977 . |
| 2002 | For uniformed services, deemed wage credits are eliminated for all years after calendar year 2001. Deemed wage credits will continue to be given for appropriate earnings for periods prior to calendar year 2002. |

Table shows the contribution (tax) rates used to determine total amounts received by the trust funds. Occasional temporary tax credits and rate reductions affect the rates paid by employers, employees, or self-employed persons, and are summarized in footnotes as applicable.
a. Based on automatic adjustment, under legislation in 1972 (as modified by legislation in 1973), in proportion to increases in average wage level.
b. In 1984, the 5.7 percent OASDI tax on taxable wages of employees was offset by a tax credit of 0.3 percent, resulting in an effective employee tax rate of 5.4 percent. However, the OASDI trust funds received the full 5.7 percent because of a general revenue transfer equivalent to 0.3 percent of taxable wages. Similar credits of 2.7 percent, 2.3 percent, and 2.0 percent were allowed against the combined OASDI and HI taxes on net earnings from self-employment in 1984, 1985, and from 1986 to 1989, respectively.
c. Based on automatic adjustment, under legislation in 1972 (as modified by legislation in 1973), using a transitional rule, specified by the Omnibus Budget Reconciliation Act (OBRA) of 1989, for computing a "deemed" average annual wage for 1988, 1989, and 1990.
d. Based on legislation in 1990.
e. Upper limit on earnings subject to HI taxes was repealed by OBRA 1993.
f. For 2010, most employers were exempt from paying the employer share of OASDI tax on wages paid to certain qualified individuals hired after February 3. Amounts equal to the revenue forgone were transferred from the general fund of the Treasury to the OASI and DI trust funds.
g. For 2011 and 2012, the combined OASDI payroll tax rate was reduced by 2.0 percent for employees and for self-employed workers, resulting in a 4.2 percent effective tax rate for employees and a 10.4 percent effective tax rate for self-employed workers. The authorizing legislation does not specify percentage reductions attributable to the separate OASI and DI trust funds. Amounts equal to the revenue forgone were transferred from the general fund of the Treasury to the trust funds.
h. Beginning in 2013, an additional HI tax of 0.9 percent is assessed on earned income exceeding $\$ 200,000$ for individuals and $\$ 250,000$ for married couples filing jointly. This additional HI tax rate is not reflected in the contribution rates shown in the table.
i. Public Law 114-74, the Bipartisan Budget Act of 2015, temporarily re-allocated a portion of the OASI tax rate to DI for calendar years 2016 through 2018.

Table shows the maximum contributions (taxes) received by the trust funds from an individual worker. Occasional temporary tax credits and rate reductions affect the amounts paid by workers, and are summarized in footnotes as applicable.
a. In 1984, the 5.7 percent OASDI tax on taxable wages of employees was offset by a tax credit of 0.3 percent, resulting in an effective employee tax rate of 5.4 percent. However, the OASDI trust funds received the full 5.7 percent because of a general revenue transfer equivalent to 0.3 percent of taxable wages. Similar credits of 2.7 percent, 2.3 percent, and 2.0 percent were allowed against the combined OASDI and HI taxes on net earnings from self-employment in 1984, 1985, and from 1986 to 1989, respectively.
b. Upper limit on earnings subject to HI taxes was repealed by the Omnibus Budget Reconciliation Act (OBRA) of 1993.
c. For 2011 and 2012, the combined OASDI payroll tax rate was reduced by 2.0 percent for employees and for self-employed workers. Thus, for 2011 , the maximum OASDI contribution for employees was $\$ 4,485.60$ and for self-employed workers was $\$ 11,107.20$; and for 2012, the maximum OASDI contribution for employees was $\$ 4,624.20$ and for self-employed workers was $\$ 11,450.40$. The authorizing legislation does not specify percentage reductions attributable to the separate OASI and DI trust funds. Amounts equal to the revenue forgone were transferred from the general fund of the Treasury to the trust funds.
d. Beginning in 2013, an additional HI tax of 0.9 percent is assessed on earned income exceeding $\$ 200,000$ for individuals and $\$ 250,000$ for married couples filing jointly. This additional HI tax amount is not reflected in the contribution amounts shown in the table.
e. Public Law 114-74, the Bipartisan Budget Act of 2015, temporarily re-allocated a portion of the OASI tax rate to DI for calendar years 2016 through 2018.

NOTES: During this period, scheduled taxes were credited to the Social Security (Old-Age, Survivors, and Disability Insurance, or OASDI) trust funds, monies for tax credits were paid from the Treasury, and the reduced tax rates were paid by employees and the self-employed.
Tables 2.A3 and 2.A4 show the tax rate and tax amount paid by employers and received by the OASDI trust funds. However, the OASDI trust funds received the full 5.7 percent because of a general revenue transfer equivalent to 0.3 percent of taxable wages. # Table 2.A6-Appropriations from general revenues and interfund borrowing provisions, by type of transaction and year enacted 

Appropriations from general revenues
1935 Annual appropriations to the old-age reserve account to provide payments; direct appropriation to pay for administrative expenses.
1939 Trust fund created from which benefits and administrative expenses were to be paid.
1944 General authorization to finance benefits and payments.
1947 For cost of gratuitous military service wage credits.
1950 General authorization repealed.
1951 Railroad interchange provisions enacted.
$1956 \quad$ For cost of gratuitous military service wage credits.
1966 For cost of transitional uninsured monthly benefits for those aged 72 and older with fewer than 3 quarters of coverage.
1972 For cost of gratuitous wage credits for Japanese-American internees.

1993 Transfers in each year from the Treasury Department to the Hospital Insurance (HI) trust fund of amounts equal to income tax receipts attributable to the increased portions of Social Security benefits included in taxable income under the 1993 Act.

## Interfund borrowing

1981 Interfund borrowing permitted among Old-Age and Survivors Insurance (OASI), Disability Insurance (DI), and Hospital Insurance (HI) trust funds as needed until December 31, 1982. For all or part of any loan to be repaid, the managing trustee determines if assets of borrowing trust fund(s) are sufficient for that purpose. Interest with respect to any outstanding loan balance at a rate equal to the rate earned by lending trust fund is transferred from time to time.

1983 Interfund borrowing reauthorized among OASI, DI, and HI trust funds for calendar years 1983-1987, with provisions for scheduled repayment, no later than December 31, 1989, of principal and interest (including amounts borrowed in 1982). No borrowing permitted from any fund that has been reduced to specified levels.

## Reallocation of payroll taxes

2015
Temporarily increased the proportion of payroll tax revenue allocated to the DI trust fund.
